The Arsana Estate

Set amidst the emerald rice fields of the Tabanan regency, The Arsana Estate offers the perfect hidden valley hideaway to escape from the stressful pace of everyday life. Only a mere forty minutes drive from Bali's stylish centre, The Arsana Estate is perched against a set of lush terraces overlooking a stunning raw jungle backdrop.

The Arsana Estate houses four separate luxury villas sprawled across the complex, all overlooking a magnificent view. The three one-bedroom Pavilions and one Master Suite Pavilion can accommodate up to nine guests in total. Awaking in the suites is a truly magical experience with the view from the bed offering uninterrupted views of dense tropical palms, a constant reminder of the untapped natural surroundings of the estate.

The Hub is an impressive symmetrical two-tier building, which presides over the terraces and swimming pool. The upper level is surrounded by glass to maximize the views both day and night. It includes a hip martini cocktail bar where a mixologist can whip up signature cocktails, a dining area, which can be as grandiose or as intimate as required, a huge lounge area to relax in post dinner and an ultra modern breakfast bar. Rooms shooting off The Hub include a Billiard room and a TV lounge packed full of beanbags, slouch cushions and a vast collection of the latest DVDs.

Perfect for opulent parties and events, the upper level of The Hub is capable of housing up to seventy seated for dinner or over one hundred for cocktails and canapés. The fan-cooled spaces feature glass walls that can be opened up completely to create a truly tropical alfresco dining experience.

Spilling down from the upper level is a shimmering water feature, which cascades into the swimming pool. An 18 metre infinity pool rests near the foot of the resort facing the dense foliage. Injuring the winding River Sungai below.

An ironwood deck capable of carrying over 100 guests and cool pool bar make this the ultimate location for a poolside party overlooking a magical sunset.
